**Hollow core absorbs some of the impact if a player gets hit.** Designed with a hollow-core, the Safe-T-Ball® absorbs some of the force of impact so players can play without the fear of being hurt from a traditional ball. Builds confidence without the fear of being hit.

Both balls look and feel like a real baseball or softball and play identical to a traditional baseball or softball. Safe-T-Balls® have great safety features so players can have fun and be safe.

Safe-T-Balls® do not prevent all injuries. They can help reduce the sting from impact, and that increases confidence for players who fear getting hurt by a standard baseball or softball.

**CUT-AWAYS SHOW THE HOLLOW-CORE CENTER, WHICH ABSORBS SOME OF THE FORCE OF IMPACT TO HELP LOWER THE RISK OF INJURY.**
